

BARRIER + SCREEN SOLUTIONS

HOW CAN WE HELP?

Do you have an office, a receptionist or other area where employees have face-to-face contact with the public, or an office setting not conducive for the return of staff and students? We want to help you navigate the changing uses of your facilities and better prepare your District for the safe return of staff and students. Please contact your project team to see how we can help with custom transparent guards, physical barriers, and/or minor renovations. Thank you for your continued support of Barton Malow.
